Collaborative Governance and Governance Principles of Natural Resource Management: Water Management in the Lower Mekong Basin
Jaturakomol, P. (Author). 11 Oct 2021

The questions from survey questionnaires were constructed from definitions of collaborative governance, governance principles of natural resources management by adapted from five main research sources.

1) Akhmouch and Correia (2016)

AKHMOUCH, A. & CORREIA, F. N. 2016. The 12 OECD principles on water governance—
When science meets policy. *Utilities Policy*, 43, 14-20.

2) Lockwood et al.(2010)

LOCKWOOD, M., DAVIDSON, J., CURTIS, A., STRATFORD, E. & GRIFFITH, R. 2010.
Governance Principles for Natural Resource Management. *Society & Natural Resources*,
23, 986-1001.

3) OECD (2015)

OECD. 2015. OECD Principles on Water Governance. Centre for Entrepreneurship, SMEs, Regions and Cities, 1-23.

4) Thomson et al. (2014)

THOMSON, A. M., PERRY, J. L. & MILLER, T. K. 2014. Linking collaboration processes and outcomes: Foundations for advancing empirical theory. *Big ideas in collaborative public management*. Routledge, 97-120.

5) Ulibarri (2015)

ULIBARRI, N. 2015. Collaboration in federal hydropower licensing: Impacts on the process, outputs, and outcomes. *Public Performance & Management Review*, 38, 578-606.

Stakeholders were classified into three groups (which needs to group from the questionnaire)

- 1) The public sector includes the Mekong River Commission staff, the national Mekong Committee, governments from member countries.
- 2) The private sector includes developers and development partners.
- 3) The civil society sector includes the representatives of local communities, NGOs, media, and academia (universities and research institutions).

For countries, according to COVID emerging in the region, there were participants from China and Myanmar. Therefore, countries were reduced when doing code.

- 1) Cambodia
- 2) Lao PDR
- 3) Thailand
- 4) Vietnam
- 5) Other Countries
